HARSHA VARDHAN N J

Frontend Engineer | React.js | Next.js | Full-Stack

Madurai, India • +91 9976871783 • harshavardhannj@gmail.com • Linkedin • Portfolio

PROFESSIONAL SUMMARY

Frontend-focused Full-Stack Engineer with 4+ years of experience architecting and shipping scalable SaaS platforms and distributed systems. Deep expertise in React.js, Next.js, and TypeScript, complemented by backend proficiency in Node.js and GraphQL. Experienced in leading feature development, mentoring engineers, and driving technical decisions in high-growth environments.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Remix, TypeScript, JavaScript (ES6+), Tailwind CSS, Framer Motion, SWR, React Hooks, Context API, Redux

Backend: Node.js, Express.js, FastAPI (Python), GraphQL, REST APIs, Kafka, MQTT, WebSockets

Mobile: Flutter, Dart, Firebase Realtime DB, Riverpod, Google Maps SDK, Stripe SDK

Databases: MongoDB, MySQL, Supabase, Firebase, PostgreSQL

Cloud & DevOps: AWS (Lambda, S3, API Gateway), Docker, GitLab CI/CD, GitHub Actions, Sentry, Kibana

AI & Tooling: OpenAI GPT, Hugging Face, NLP, AI Agents, MCP, LLM Integration, Prompt Engineering, Jest, Shopify Polaris

CS Foundations: Data Structures & Algorithms, System Design, OOP, API Design

WORK EXPERIENCE

Frontend Engineer | Trikon Telesoft Solution, Chennai *Oct 2025 – Present*

- Migrating a legacy application to Next.js, boosting page load performance and reducing technical debt across 15+ core modules.
- Building responsive, production-ready UIs with React and Tailwind CSS, collaborating closely with design and backend teams to maintain biweekly release cycles.
- Introduced SWR-based data fetching and custom React hooks, cutting redundant API calls by 30% and improving overall developer efficiency.
- Implemented Framer Motion animations across key user flows, elevating perceived performance and UI interaction quality.

Full-Stack Software Engineer | Binarychakra, Madurai *Oct 2023 – Oct 2025*

- Architected a multi-tenant B2B SaaS platform (Remix) with modular, fault-tolerant services, achieving 95% client retention in production.
- Engineered Kafka event pipelines handling 100K+ events/minute, cutting real-time dashboard latency by 40% under peak load.
- Integrated OpenAI GPT with a FastAPI service layer to automate data processing workflows, eliminating 60% of manual effort and speeding up feature delivery.
- Mentored 3 junior engineers and rolled out CI/CD pipelines with automated code review, raising release confidence by 25%.

Mobile Developer | Cron24 Technologies, Madurai *Mar 2022 – Sep 2023*

- Delivered 5+ production Flutter apps with Stripe, Firebase, and Google Maps integrations, serving 10K+ monthly active users and driving a 50% increase in ad revenue.
- Resolved critical crash scenarios and shipped multi-language support across 10+ regions, improving app uptime by 30%.
- Reduced UI defects by 40% by adopting Riverpod for scalable state management, increasing codebase maintainability across the team.

PROJECTS

B2B Admin Panel — *Next.js, React, Tailwind CSS*

- Led API integration for a high-traffic admin panel, managing complex client-side state with React hooks to handle large, dynamic datasets without UI lag.
- Optimized data-heavy dashboard screens for responsiveness and usability, directly supporting day-to-day workflows for enterprise business users.

AI-Powered Blog Generator — *React, Remix, Node.js, OpenAI*

- Built an AI content platform generating SEO-optimized blog posts with brand-consistent tone, delivering +40% organic traffic and +8% social CTR for client campaigns.
- Developed a Remix-based editor with post scheduling and OpenAI image generation, reducing manual marketing effort by 35% and standardizing publishing workflows.

Store Workers — AI Automation Agent — *React, Node.js, FastAPI, MCP, Supabase, AWS*

- Built an MCP-based AI agent to automate Shopify store operations and bulk product updates, cutting manual admin tasks by 40% and significantly improving product data accuracy.
- Designed the backend with FastAPI, Supabase triggers, and AWS S3/Lambda behind a Shopify Polaris UI, eliminating error-prone multi-channel update cycles and reducing rollbacks.

EDUCATION

MCA — Master of Computer Applications | K.L.N. College of Engineering, Madurai **|** *Apr 2022*

B.Sc. Computer Science | Sourashtra College, Madurai **|** Apr *2020*
